ABOUT ME

As a post graduate IT student currently in my final semester, I have successfully completed many full stack projects. I have honed my skills in creating visually appealing and user-friendly interfaces. My experience lies in designing and implementing efficient and seamless user experiences, ensuring optimal functionality and performance.

EDUCATION

Bachelor of Computer Applications

- UCCC & SPBCBA & SDHGCBCA & IT College (2019-2022)

Master of Science (Information and Communication Technology)

- J.P Dawar Institute of information science and technology (Current)

WORK EXPERIENCE

GoUp Technologies January 2023 - June 2023 | 6 months

- Intern Project: Developed "Clique," a .NET Core-based community website enabling various communities to share content, engage users, and award contributions.

FUTURE INTERESTS

I am interested in popular languages and technologies that is designed to build websites which are fast and efficient providing good user experience.

ACADEMIC PROJECTS

1 CMS (content management system)

- A system to post any type of content on the website including comment and like features with advance functionalities on admin side of management featuring google graphs to display statistical information and multiple user login at the same time using different browser.

- Technologies includes Core PHP and Mysql.

2 ShoeShepreX

- A website that provides platform to sell all the type of footwear including many categories featuring men, women, children and sports. customer can see shoe reviews and provide their own reviews too. It also has shopping cart implemented using javascript and purchasing section. Admin panel includes many advance shorting functionalities for the admin to manage data for the website.

- Technologies includes Enterprise Java, REST APIs, Mysql and JSF

3 CLIQUE

- CLIQUE is an expansive online community where individuals from all walks of life gather to discuss, explore, and engage in a myriad of topics. It's a dynamic space where conversations are sparked, ideas are exchanged, and knowledge is shared, all driven by the contributions of our vibrant user base. Featuring upvote and downvote functionality to provide "real" content to the audiences.

- Technologies includes .NET Core and Microsoft SQL server management studio.

4 AGILEDASH

- AgileDash is a specialized project management platform tailored specifically for Scrum teams. It supports robust team management, sprint planning, and product oversight. This platform enables Scrum masters to efficiently create teams, assign roles, and manage sprints with customizable start and end dates.

- The platform enhances data accessibility for team members by allowing them to export sprint plans in PDF and Word formats. Additionally, it supports the importation of backlogs from CSV files, which helps in maintaining continuous workflow and data integration.

- Technologies include .NET Core, PostgreSQL, RabbitMQ, Redis and KendoUI

ACHIEVEMENTS

Academic

- Top rank in final year of BCA
- Best project in BCA
- Secured First Rank in MSc in Information and Communication Technology (ICT) for Semester 1, Semester 2 and Semester 3.

Technical

- AWS Academy Graduate - AWS Academy Introduction to Cloud Semester 1
- The Complete Web Development Bootcamp - Udemy
- IIT Bombay Certifications in
  - C
  - CPP
  - JAVA
  - JavaScript
